censys

The Censys Integrations Marketplace
Unleash the Full Potential of Your Security Ecosystem

In today's ever-evolving, complex, and fragmented technology landscape, the need for a comprehensive and integrated security tool stack is paramount. The Censys Integration Marketplace empowers your team with seamless, rapid, and reliable integrations, transforming your security operations.

Key Features

Effortlessly Deploy:
Rapidly integrate with any vendor in under 15 minutes to streamline your security setup.

Access a Diverse Ecosystem:
Benefit from a broad range of supported platforms and tools, for both security and non-security tools.

Share Data in Real-Time:
Ensure the seamless flow of leading internet intelligence to all your security systems.

Continually Develop:
Regularly operationalize new, strategically developed integrations to enhance your security posture.

Benefits

Experience transformative advantages with the Censys Integrations Marketplace, and empower your security operations through:

Streamlined Operations

Consolidated toolstacks enhance control, visibility, and coordination across various security platforms for more efficient operations.

A Unified View

Bridging disparate systems eradicates data silos, providing a unified view of security data for integrated risk and exposure management.

Automated Workflows

Streamlining tasks like importing cloud assets and integrating shadow IT into vulnerability systems significantly reduces manual workload.

Use Cases

⚠ Alerting
Enhance risk detection with real-time and daily digest risk alerting.

☁ Cloud Asset Ingestion
Automate discovery of new cloud assets for early detection and accurate asset inventory.

Ticketing
Automate ticket creation for better incident response and improved communication.

🖥 Security Information and Event Management
Send risk and host log events for centralized monitoring, tracking, logging, and reporting.

🔒 Vulnerability Management
Seamlessly auto-update VM tools with leading internet intelligence from Censys.
